Workwear
BP®
feel the difference
For moments that matter:
BP Workwear® for professionals.
www.bp-online.com
BIERBAUM-PROENEN. SINCE 1788.

Bierbaum-Proenen. Since 1788.

You can rely on us.

Maximum freedom of movement, intelligent details, great comfort.

For every climate: BP Outdoor.

Water-repellent, windproof, breathable and quick-drying: we have developed new, particularly comfortable materials that will make it easier for you when working both indoors and outdoors. They are more comfortable, more lightweight, more durable and, of course, particularly easy-care.

BP design: modern and always utterly professional.

It's our attention to detail that helps make your everyday life easier, such as the ergonomic cut or the BP arm-lift system that allows you to reach up without worrying about exposing your stomach or back. Many of these ideas have been developed with professionals like you, ensuring that they are precisely tailored to your needs.

For men and women: BP Workwear.

Whether you prefer fitted items or clothing with a more relaxed cut, BP has something for everyone. Most importantly, our clever designs and use of highly functional materials guarantee freedom of movement. Furhtermore, in collaboration with women from industry and trade, we have developed work clothing tailored precisely to their needs in terms of function, fit and design.

It all works together: mix & match.

All BP collections can be easily combined according to your professional requirements and colour preferences. And with the BP Essentials soft-shell and fleece jackets, the BP T-shirts or the BP Outdoor items, there is always something to complement your personal style.

As diverse as your job: our BP colours.

The colour choices are as diverse as your daily challenges. A large range of classic workwear colours and trendy tones offer you a wide selection to make your individual ideas of perfect workwear a reality.

BP® feel the difference

MOMENTS CAPTURED

CREATING MOMENTS WITH BP

Tell us your story!

MOMENTS CAPTURED

We've all experienced special moments at work, moments that give us a boost and help us through the rest of the day. A warm smile from a satisfied customer, or that feeling when your piece of work is finished or your project completed. Or maybe a thank-you from your boss, a sense of pride from a challenge overcome, or even enjoying a beer in the pub with your colleagues after work. Each of these moments is precious and irreplaceable. They tell you: I've done a good job. I've delivered quality. I am recognised for my work. I'm part of an amazing team.

We've been out and about looking for tradesmen and women with snapshots to share. What are their special moments? What motivates them at work? And how do they manage to perform at a consistently high level day in, day out? In our bid to find out, we got to know a bunch of interesting people and learnt a lot about their working lives.

CREATING MOMENTS WITH BP

"It's those moments that make you realise: I'm in the perfect job! The passion that I invest daily at work is worth it!"

MOMENTS IN WHICH IDEAS BECOME REALITY.

Passion Motivation Creativity

JOINER

LAURA

Laura lives in Hamburg, in the St. Pauli district of the city. Whenever the 29-year-old's out and about in her neighbourhood she bumps into friends and people she knows, and there's always time for a quick chat. "St. Pauli is basically a village", she says, smiling. But more importantly, it's Laura's home. It's where she lives, works and plays, and it's where her friends and family live too.
Laura's work is just a stone's throw away from the lively Spielbudenplatz, one of the city's main squares. Her tools are stored in a container on what used to be the Esso site, a location rich in history. It was once home to Germany's most famous petrol station as well as housing and legendary clubs. The entire complex was pulled down for fear it was about to collapse, leaving an expanse of wasteland in the middle of this vibrant city.

It's hardly the most obvious workplace for a joiner, but for Laura it's perfect. "I'm just very happy here", she says. She is a joiner for an events agency that runs the entertainment programme at Spielbudenplatz. "At the moment we're building furniture from pallets for the bars on the square," she explains. She begins by sawing the pallets to size, before sanding, priming and varnishing the wooden components, which are then screwed together. The finished products include lounge-style sofas, side tables and bar tables. Each piece is unique and gives Laura a sense of pride. "Of course I'm proud when I walk past my furniture."

A cool place to work, nice colleagues and very flexible hours, that's what Laura loves about her job. With no workshop of her own she spends most of her time outdoors – not always a pleasant experience given Hamburg's climate. "Sometimes we get rain, hail, wind and sun in the space of a single day." Layering helps. The combination of a t-shirt, soft-shell jacket and waistcoat on top works well against the elements. And it's about more than staying warm. The right clothing is critical in Laura's job. "My work clothes have to be hard-wearing and comfortable," she explains. "It's also really important that I can move easily, and my clothes need to have lots of big pockets." With the right clothing she's good to go.

MOMENTS WITH A GOOD EYE AND SOUND INSTINCT

My dream job

"Watch my film. bp-online.com."

"I love going for a beer after work and standing with my mates around a bar table that I built."

Being a joiner is Laura's dream job. She was never interested in an office job. She comes from a family that are all good with their hands. So it was only natural that after school she eventually found her way into a trade. Her apprenticeship with a training company taught her a lot. She once built vanity units that were then gilded and ended up in bathrooms bigger than her flat. Her piece of work for her final exam was an extending table, which now has pride of place in her home.
Laura loves the logical thinking that goes with her job, as well as the creativity, the wood and the tools. "I'd rather go shopping for tools than shoes", she says. And she means it. She also loves the freedom and flexibility of her job. "A German vocational qualification is your passport to work around the world."

Laura can imagine leaving Hamburg for a while to work somewhere else. But she's pretty sure she would be drawn back again after a few years.
Back to St. Pauli and her roots.

"St. Pauli is my home."

MASTER TILER

NORMAN

MOMENTS IN WHICH THE SOLUTION IS CLEAR.

As soon as Norman walks into a bathroom that needs retiling, he can picture the finished design in his head. "Spatial thinking and a good imagination are extremely important in our job", explains the 50-year-old master tiler from Kleve. If you want to be a good tiler you also need to be good with your hands, have an eye for detail, and be creative and flexible. After all, "every project is different, with its own challenges and demands, and you need to be looking for new solutions all the time."

Norman always wanted to be a tiler. But apprenticeships were thin on the ground. He started working as a locksmith instead before finally getting his dream job. After a few years he took over a tiling business. Despite his many years' experience, he still gets that feeling of satisfaction when the last tile is placed in position, everything has gone well and the bathroom is finished. "Once we're finished, you can see the end product. We're the final link in the chain. The customer can start using their bathroom and the tiles may well be there for a good 20 years. We're creating something that will last, and that always makes me happy."

MOMENTS THAT LEAVE AN IMPRESSION.

Norman was born to be a tiler, as his customers experience for themselves. Even at the survey stage, Norman can give them a detailed description of what their finished bathroom, living room or patio will look like. “Customers have to trust me. It doesn’t work otherwise. You need to be credible,” he explains. First impressions count. And it goes without saying that work clothing makes an important contribution. “My work clothes are a bit like my business card. If I look professional it gives my customers reassurance, and they have confidence in my work.”

When Norman took over his business back in 2005, with two employees, the first thing he did was to kit out his team in a uniform. “Before that, everyone just wore what they liked, but it was important to me that we wore the same work clothes and looked smart.” Business has been doing well ever since, demand is buoyant and Norman now has five employees.

Customers’ expectations have changed over the years. People are happy when the tiler turns up. But they also want the job done quickly so that they can use their shower again. And there’s another trend: people are looking for something out of the ordinary. Norman’s speciality is large format tiles, which can be as big as 1 by 3 metres. The end result looks good and is easy to keep clean. “These large format tiles are a challenge. We need two people to handle them. But when it’s all finished, we can be proud of our work.”

For Norman, the best moment is when the customer sees their finished bathroom for the first time. “You’ll hear them say, it’s exactly what I wanted.” That’s the best compliment you can get.

"Watch my film. bp-online.com."

Every moment counts.

feel the difference

Creating moments with BP. Since 1788.

We make clothing for people like you who identify with their work: enjoyment and success are as important as a high performance at all times and 100% commitment.

We offer work clothing solutions that meet these requirements and that are reliable, day after day. With a feel for details. With high sustainability standards. And with the sheer joy of quality.

We at BP have been investing in this quality since 1788. For people who enjoy their work but whose everyday working lives are also shaped by time pressure and involve physically demanding activities. For these wearers of our work clothing, material, fit, durability and ecological compatibility are particularly crucial.

We invite you to discover for yourself this difference in terms of quality, sustainability, function and design. In short: our professional BP clothing solutions.

This catalogue is valid from 2018 to 2020.
For production reasons, we reserve the right to make changes to individual products.
Printing errors reserved.

Bierbaum-Proenen. Since 1788.

An eye on the world.

We create sustainable values for the people who work with us. Economic success equips us for the future. We stand for fair working conditions and use natural resources responsibly.

Basic principle 5 of the BP identity

MORE respect thanks to sustainability.

We at BP believe it is our responsibility to apply the same values to the development and production of our work clothing as we have applied to the running of our company since 1788. One of these values is sustainability.

In order to meet this claim, we expect that everyone at BP, as well as our suppliers and partners, show respect towards others and the environment.

On the next page, by taking BP's own production company VETRA in Tunisia by way of example, we describe how this is implemented at one of our foreign production sites.

We work with a variety of institutions that promote, require and support sustainability. For example, we produce all work clothing solutions worldwide according to the principles of the Fair Wear Foundation (FWF) and have now been awarded the status Fair Wear Leader five times in succession. We also support the Fairtrade Cotton Program, and all of our products are, amongst others, certified in accordance with Oeko-Tex® Standard 100. Most of the garments in all our collections are suitable for industrial laundering.

You can rely on BP quality and our commitment to man and nature. To find out more, go to **www.bp-online.com**.

MORE commitment to planet fairness.

Quality, made by VETRA.

VETRA, the BP production company in Tunisia, was founded in 1995 and now sews our most complex products in small batch sizes. This isn't surprising as 280 highly trained employees work at VETRA, and almost half of them have been there for more than 15 years, which means that they have a lot of expertise for the company.

VETRA stands for flexibility, quality and efficiency. Its expertise in the field of industrial manufacture in particular is excellent. BP employees based in Cologne often travel to Tunisia for training and development. In turn, employees in Domstrasse, Cologne, often provide training for the Tunisian partners, passing on their innovative knowledge.

For man and the environment.

VETRA is STeP-certified and audited on a regular basis by the Fair Wear Foundation (FWF). BP works intensively on improving working conditions at its own factory. In 2017, BP and VETRA together launched a FWF pilot project called "Living Wage" that is aimed at finding out how remuneration can be improved for factory employees and which other financial possibilities or support can be made available.

"To produce good work, you have to be happy. This is the basis of our quality."

Matthias, Manager of VETRA, the BP production site in Tunisia.

And he's right, as is confirmed by the work of our BP production company in North Africa.

BP feel the difference

BP and the Fair Wear Foundation.

Manufacturing good products and standing up for a good cause. Principles that bring people together. All the more so if more than 120 European companies join forces in order to improve working conditions in the textile and clothing industry.

The Fair Wear Foundation (FWF) multi-stakeholder initiative was founded in 1999. In 2010, BP became the first German supplier of work clothing to join. All members are inspected by the organisation on a regular basis. Not only are they inspected but also the respective production partners. So that BP can be sure that everyone is behind this initiative, the clothing manufacturers also sign the FWF principles. Consequently, everyone pulls together.

BP IS A MEMBER OF FAIR WEAR FOUNDATION WWW.FAIRWEAR.ORG

Today, we are proud to say that 95% of the BP procurement volume is sourced from audited production partners. And that BP has been awarded the status Fair Wear Leader for the fifth time in succession.

Find out more at **www.fairwear.org**

Annet,
Sustainability, Cologne

Bierbaum-Proenen. Since 1788.

MORE than just manufactured.

We are a member of the Fair Wear Foundation multi-stakeholder initiative. The aim of the Fair Wear Foundation is to improve working conditions for people employed in the international clothing industry. We have now been named Fair Wear Leader five times in succession.

For more information, go to **www.fairwear.org**

Our product stewardship also means that BP products are harmless in terms of human ecology. That is why all BP products are tested for harmful substances, and most are certified in accordance with Oeko-Tex® Standard 100.

We are a member of the Partnership for Sustainable Textiles. This German governmental initiative aims to uphold social, ecological and economical standards throughout the production and supply chain in the clothing industry.

For more information, go to **www.textilbuendnis.com**

We participate in the Fairtrade Cotton Program. This program enables small-scale farmers to sell more of their cotton as Fairtrade. In 2017, as part of the Fairtrade Cotton Program, we purchased 10% of our cotton under Fairtrade conditions.

For more information, go to **www.info.fairtrade.net/program**

In 2017, our Tunisian subsidiary Vetra received STeP certification by Oeko-Tex®. By analysing all relevant company areas, such as chemicals management, environmental management, occupational health and safety, social responsibility and quality management, STeP certification provides a comprehensive and reliable indicator of a production company's approach to sustainable management.

Some suppliers are bluesign® system suppliers. This label eliminates harmful substances right from the beginning of the manufacturing process, and sets and controls standards for an environmentally friendly and safe production.

Make it your own.

EMBROIDERED EMBLEM

Your logo, company or personal name can be sewn onto the fabric.

The BP logo service for your great visual appearance.

Names, logos, lettering or simple motifs – with **BP**, you can individualise your clothing.

The advantage: this highlights the sense of togetherness of whole teams and also, of course, the personality of the individual. Clothing can also be used to communicate the corporate design, for example, of a workshop, service provider or warehouse. There are lots of colours to choose from.

The options we offer, namely direct embroidery, embroidered emblem or transfer print, are always tailored to the specific product. Furthermore, all finishing materials used by **BP** are suitable for **industrial laundering in compliance with ISO 15797**.

DIRECT EMBROIDERY

Very hard-wearing and particularly distinguished-looking. Our quality yarns are as indifferent to frequent washing as they are to the stresses of everyday wear. Lots of colours and font types are possible.

TRANSFER PRINT

This is robust individualisation using a film transfer print for printing your logo, name or motif on almost any fabric. Here, too, we offer a large range of colours, sizes and forms.

> Industriewäsche-Tauglichkeit

BP Produkte sind überwiegend mit dem **PRO-Label** ausgezeichnet. Das PRO-Label kennzeichnet, dass das damit ausgezeichnete Produkt die Anforderungen der ISO 30023 erfüllt. Es ist nach ISO 15797 auf Industriewäsche-Eignung geprüft, und zwar im Waschprogramm (1-8), im Tunnelfinisher und/oder beim Trocknen im Tumbler. Das PRO-Label ist jedoch nicht als Pflegeanweisung zu verstehen. Grundsätzlich sind vor dem Einsatz eines jeden BP Produkts in der Industriewäsche praxisgerechte Waschtests durchzuführen.

Einige unserer Produkte sind **nicht** mit dem PRO-Label ausgezeichnet. Unter bestimmten Bedingungen können sie trotzdem in der Industriewäsche eingesetzt werden. Gerade bei diesen Produkten sind jedoch ausführliche Waschtests durchzuführen, um den geeigneten Pflegeprozess zu definieren. Unsere Produkte sind hinsichtlich der Industriewäsche-Tauglichkeit wie folgt klassifiziert:

Geringe Industriewäsche-Tauglichkeit:
≤ 40 °C, Lufttrocknung

Mittlere Industriewäsche-Tauglichkeit:
≤ 60 °C, 1 Punkt Tumblertrocknung

Hohe Industriewäsche-Tauglichkeit:
≤ 75 °C, 2 Punkte Tumblertrocknung

Der Erfolg der Reinigung sowie die Beanspruchung der Bekleidung wird durch die vier folgenden Grundparameter bestimmt: Chemie, Mechanik, Temperatur, Zeit Grundparameter. Die oben genannte Klassifizierung betrachtet aus Vereinfachungsgründen nur die Temperatur beim Waschen und Trocknen. Bei den praxisgerechten Waschtests sind selbstverständlich auch die anderen Parameter zu berücksichtigen.
