Pima-cotton

Pima-cotton is a particularly high-quality cotton. Its special quality is due to a higher fibre length than normal cotton; the quality of cotton improves with increasing fibre length, also referred to as staple. The higher the staple length, the more even and durable the yarn will be. As a result, you will get the excellent quality of our polos. Our PIMA-cotton comes from the USA, it is picked in a very environmentally friendly way and will convince you through its soft surface and durability.
